

CONNECT

The future of home and community care

VON Connect is live across Nova Scotia. Thank you!

Thanks to your generous support, VON Connect, powered by AlayaCare, has launched at all of our sites throughout Nova Scotia! With your help, we reached our goal to raise \$4 million even earlier than expected!

The excitement is palpable among our hardworking team members, and we are grateful for your role in bringing this digital transformation to our clients.

Together, we made MORE possible! More care to more clients in more communities. More options to deliver virtual care. More wraparound care, with easy referral to other programs and services.

VON Nova Scotia at a glance:

- 586,000+ nursing hours per year
- 846,000+ home support hours annually
- 60,000+ meals delivered monthly
- 18,000+ adult day program attendance days each year
- 6,800+ rides given annually

Your generosity is helping in your own community

VON is Nova Scotia's largest provider of home and community care services, helping thousands of Nova Scotians to live each day to the fullest in the best possible health.

As a registered charity, we depend on our donors to help us bring supportive care to vulnerable people right in our own communities. People like Peggy, who has been receiving care from VON's dedicated team members for 15 years. A combination of nursing care, home support and frozen meal delivery has made a remarkable difference in her life, helping her to stay in the home she loves.

"There is such trust with VON," says Joan, one of Peggy's daughters. "All of us here have been touched in some way by VON. It's an essential service."

While VON receives grants and pay-for-service fees for some programs, VON Connect has been fully funded by donors like you.

With your generosity, we have been able to purchase and implement software that connects all sites, all providers and all clients across Nova Scotia.

VON Connect was developed specifically for the home and community care sector. Some of the benefits of this cutting-edge software include:

Virtual care & remote monitoring

Real-time access to client information

Customized clinical documentation

Seamless follow-ups & referrals

Automated scheduling

VON Connect is a game changer. It has increased my confidence as a community nurse, and improved my ability to provide safe, competent care to my clients. The resources I need are right at my fingertips. No more sifting through paper charts looking for an order. I can read through care plans prior to arriving at the visit, allowing me to more efficiently and effectively plan my day. I have more time to spend with clients and less time spent on paperwork. And VON Connect makes it easy for me to collaborate with other nurses in real time.
